- Nozzles available in a variety of outputs and spray patterns designed for your specialized job
- Internal check valve prevents gun and hoses from crossing over
- Side wing design makes attachment quick and easy
- Clear dispensing tip allows applicator to identify a used nozzle

FROTH-PAK PORTABLE KITS

- Froth-Pak 12
- Froth-Pak 12 Kit Refill
- Froth-Pak 110
- Froth-Pak 180
- Froth-Pak 600

FROTH-PAK REFILLABLE TANKS

- 17 gallon
- 60 gallon
- 120 gallon
- 350 gallon

INSTA-GRIP ADHESIVE

- Insta-Grip 10 lb.
- Insta-Grip 23 lb.

THE TRANSPORTATION GROUP

The Transportation Group markets polyurethane foams and adhesive dispensing systems used for:

- Insulation
- Structural integrity
- Sound dampening
- Vibration control
- Dust and air infiltration control
- Surface protection
- Flotation

across a variety of vehicle applications:

- Refrigerated trailers
- Truck repairs
- Railcars
- Marine and boating
- Fire trucks, ambulances and emergency response vehicles
- Buses
- RV's
- Limousines and hearses
- Space shuttle
- Airplanes
- Automobiles

SERVING THE TRANSPORTATION MARKET FOR OVER 20 YEARS

REFRIGERATED TRAILER REPAIR SYSTEMS

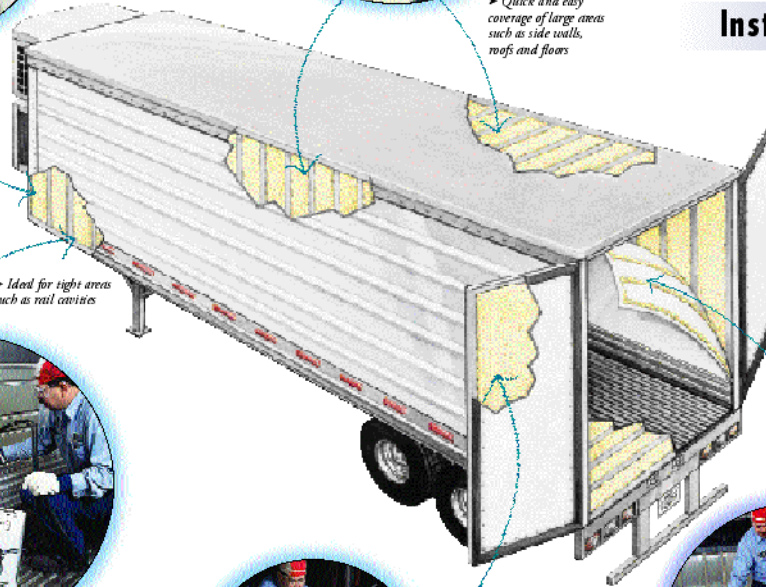

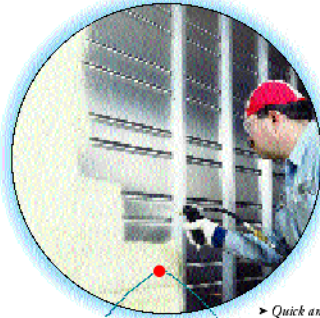

FROTH-PAK®

Polyurethane insulation & adhesives that do the job quickly, efficiently and economically

Froth-Pak® for Refrigerated Insulation Repair

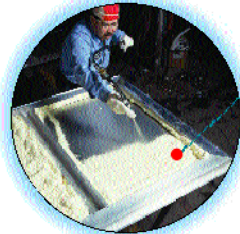

- Returns refrigerated trailers to original insulation efficiency.
- Ready to use when you are. No mixing, no set-up, no warm-up.
- Foam dispenses, expands and solidifies in seconds. Repairs are quick and efficient.
- Portable design. Ideal for transporting and handling repairs in hard to reach places.
- Easy to use and control. Minimal operator training required.
- No waiting for outside foam contractors. Increased shop profits and efficient use of bays.

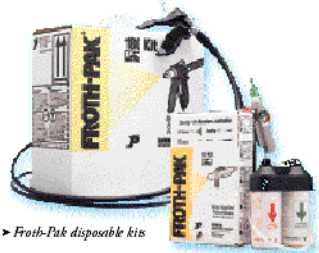

► Insulating radius panels

► Ideal for tight areas such as rail cavities

► Quick and easy coverage of large areas such as side walls, roofs and floors

► Insulating doors

► Froth-Pak disposable kits

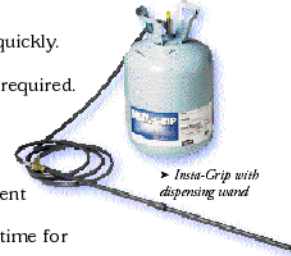

- Minimal initial equipment investment. Low maintenance and parts replacement cost.
- Available in variety of sizes ranging from disposable kits to refillable tanks.

► Froth-Pak refillable tanks

Insta-Grip® Adhesive for Attaching Fiberglass Liners

- Dispenses easily and quickly. No trowels or caulk guns required.
- Quick initial bond allows for proper placement of liner, yet still provides time for repositioning.
- Adhesive cure time reduced substantially. Trailer downtime is minimized.

► Insta-Grip with dispensing wand

► Dispensing Insta-Grip onto fiberglass liner

► Liner placed onto trailer wall. Bracing installed to maximize bonding process
